"CD8+ T Cells Regulate Liver Injury In Obesity-Related Nonalcoholic Fatty Liver Disease"

Dr. Kennedy's talk will focus on the role of CD8+ T cells in the development of obesity-associated NAFLD. Her interests are in identifying the type and function of immune cells that infiltrate the liver in obesity-associated NAFLD.

Thursday
December 14, 2017
4:00 p.m.
206 Preston Research Building

This lecture series features the most promising young scientists who are making notable discoveries as postdoctoral fellows or early career faculty.
