

FRONTIERS OF RESEARCH AND ACADEMIC MODELS OF EXCELLENCE (FRAME)

AGEP-T FRAME (Frontiers of Research and Academic Models of Excellence) provides professional preparation that will permit underrepresented minority graduate students and postdoctoral trainees in the STEM disciplines to compete and succeed in the Professoriate. FRAME Fellows represent the highest levels of accomplishment and are dedicated to pursuing academic careers in which they will help mentor and encourage future scholars.

AGEP_FRAME@STONYBROOK.EDU

For Advanced Doctoral Students:

- Opportunities to apply for competitive seed grants
- Incentives to develop new research skills and collaborations
- Conference travel support to present research and develop new research networks
- Post-doctoral placement assistance through the BSA network, INCREASE consortium and professional societies

For Postdocs at SBU & BNL:

- Fellowship supplements
- Comprehensive, formal training in key areas of professional and career development
- Quality mentoring and career guidance
- Participation in a cohesive and inclusive community
- Job search and placement assistance through the BSA network, the INCREASE consortium and professional societies
