

# ON WRITING

## Writing Beyond the Academy

For the most part, we as researchers are trained to write for specialists within our field. This event will explore how to cultivate writing skills to reach non-specialist audiences.

Please join us as **Dr. David Weintraub**, Professor of Astronomy, **Dr. Paul Kramer**, Professor of History, and **Bill Snyder**, Senior Science Writer at VUMC, discuss writing for audiences outside of the academy. Refreshments will be served.
