## Specialty Training Track: School Speech-Language Pathology for 6-Semester students

The School Track offers specialty training in school speech- language pathology for students who plan to pursue a career in schools working with students ages 3 through 21. The pediatric coursework in the required M.S.-SLP curriculum provides a foundation for students to build additional skills for school speech-language pathology specialization while providing students a strong foundation in the Individuals with Disabilities Education Act.

Students enrolled in the SLP program are required to complete at least five semesters of course work and a 10-week clinical or research externship. Students participating in the DHSS School Specialty Track must also complete the following:

- **4 seminar credits**
- **Extended Practicums:** Trainees will receive extended placements in the Vanderbilt Kennedy Center (VKC) Reading Clinic, the Metro Nashville Public School (MNPS) Preschool Child Find Clinic and the MNPS School Placement. The goal of these placements is to experience the multiples roles of school SLPs and understand the many ways in which children with disabilities are supported in schools, for example, observing school psychologists and classroom observation.

### OTHER PROGRAM OPPORTUNITIES:

**Professional Development:** Students participate in available professional development which includes, It's All About Language workshops, Martha Lynch Lecture series, and the annual School Speech-Language Pathology Conference at Vanderbilt. In addition, there are many other optional professional development opportunities in the community.

\*Students on the school SLP track serve on the planning committee for the annual School SLP Conference at Vanderbilt.

Selected School Track students participate on the US Department of Education training grant entitled "Training Interdisciplinary Professionals to Serve Students with Severe Disabilities" (TIPS3) grant #, a collaboration with Vanderbilt's Department of Special Education. Trainees complete additional coursework (exceptional learners, reading in children with intellectual disabilities, AAC in schools) and experiences (collaborative practicum with special education trainees, interdisciplinary seminar). Trainees may receive grant funding for tuition support.

**For more information please contact: Melanie Schuele, Track Director**

## School Specialty Track 6-Semester Students Program of Study Curriculum

Courses Required			Course Name/hours
All SLP students	School Track	School TIPS3	
<b>FALL - YEAR 1</b>			
X			Physiological Bases of Comm. I (3 hrs.)
X			Clin Principles and Procedures (2 hrs.)
X			Child Language Acquisition (3 hrs.)
X			Speech Sound Disorders (3 hrs.)
X			Research in Communication Sciences and Disorders (2 hrs.)
X			Intro to Clinical Practicum (1 hr.)
X			Intro to Amp for Infants/Children (Optional if taken as undergrad. - 2 hrs.)
X			Phonetic Science (1 hr.)
X			Language Science (1 hr.)
	X	X	Speech-Language-Literacy Seminar (1 hr.)
		X	Characteristics of Students with Low Incidence Disabilities (3 hrs.)
<b>SPRING - YEAR 1</b>			
X			Physiological Bases of Comm. II (1 hr.)
X			Traumatic Brain Injury (2 hrs.)
X			Dysphagia (3 hrs.)
X			Aphasia (3 hrs.)
X			Clinical Practicum (1 hr.)
X			Aural Rehab for Children (3 hrs.) for Spring 1 (preferred) or for Spring 2
	X	X	Speech-Language-Literacy Seminar (1 hr.)
		X	Augmentative and Alternative Communication (3 hrs.)
<b>SUMMER - YEAR 1</b>			
X			Motor Speech Disorders (2 hrs.)
X			Craniofacial Disorders (1 hr.)
X			Voice Disorders (2 hrs.)
X			Clinical Practicum (1 hr.)
			Ped. Feeding/Swallowing (Elective- 1 hr.)

Courses Required			Course Name/hours
All SLP students	School Track	School TIPS3	
<b>FALL - YEAR 2</b>			
X			Child Lang Impairment I: Nature (2 hrs.)
X			Child Lang Impairment IIa: Assessment (1 hr.)
X			Stuttering (3 hrs.)
X			Augmentative/Alternative Communication (2 hrs.)
X			Clinical Practicum (1 hr.)
	X	X	Speech-Language-Literacy Seminar (1 hr.)
X			AAC Lab (1hr.)
		X	Teaching Reading to Students with Severe Disabilities (3 hrs.)
			Autism (Elective- 2 hrs.)
<b>SPRING - YEAR 2</b>			
X			Child Lang Impairment IIb: Assessment (1 hr.)
X			Child Language Impairment III: Intervention (2 hrs.)
X			Professional Issues (4 weeks - 1 hr.)
X			Family Ctrd Counseling/Interview (4 weeks - 1 hr.)
X			Clinical Practicum (1 hr.)
	X	X	Speech-Language-Literacy Seminar (1 hr.)
<b>SUMMER - YEAR 2</b>			
X			Externship (10 weeks - 6 hrs.)
